

LITIFY HEADSTART FOR PERSONAL INJURY FIRMS

When it comes to case management for personal injury or workers' compensation, why reinvent the wheel?

Sikich's HEADSTART is a pre-configured Litify solution that saves firms time and money. It delivers the metrics, dashboards and automation that the best personal injury firms in the country use.

Litify is the world's most powerful case management system used by plaintiff, defense, immigration, mass tort and corporate legal teams. However, along with these powerful benefits come custom implementation costs. By configuring standard features to optimize them for personal injury firms, Sikich is able to offer industry best practices faster, at a lower cost and in a customizable format.

Our team has worked with over 100 law firms to distill best-in-class solutions into our HEADSTART offering.

OUR EXPERTS

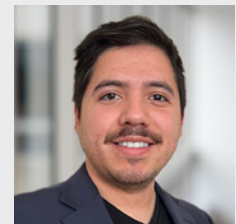

NICK CIRINO
SENIOR DIRECTOR - LEGALTECH

- Served 70+ law firms, including Am Law 100
- Salesforce Certified

ANDI CLAVIJO
SENIOR SOLUTION CONSULTANT

WHAT WE OFFER:

REDUCE IMPLEMENTATION TIME BY 50%

Standard implementations of Litify take six to eight months. HEADSTART reduces implementation time to three to four months.

REDUCE IMPLEMENTATION COST BY 30% OR MORE

Standard implementations can be costly. HEADSTART reduces implementation expenses by 30% or more.

POSITION YOUR FIRM FOR GROWTH

Personal injury firms everywhere use Litify to streamline their case management. HEADSTART was built with your future-readiness in mind. It can be extended, modified and optimized as your firm grows, as our approach is always custom tailored.
