PROJECT OPPORTUNITY

Following a discussion with a manufacturing company's CEO, it was discovered that the Ohio-based manufacturer wanted to extend its reach by acquiring an existing company in South Carolina.

SUPPORT FROM SIKICH

The company met with the Site Selection & Incentives team to uncover opportunities for incentives and cost offsets. Despite the brief timeline given for the acquisition, our team was able to open the project and submit all application documents for a seamless incentives process. Since the company was planning to retain a certain number of jobs through the acquisition and create 25 new full-time positions, along with a projected capital investment of \$17,200,000, we were able to introduce the project to the South Carolina Department of Commerce and secure incentives to support the company's plans for growth in South Carolina.
